LEAGUE OF WOMEN VOTERS®
OF NEW JERSEY EDUCATION FUND

The League of Women Voters of New Jersey Education Fund (LWVNJ-EF) encourages active and informed participation in government. To achieve this goal, **LWVNJ-EF**:

Publishes and distributes the New Jersey Citizens Guide to Government, which makes it easy for NJ residents to contact their elected officials and learn about government.

Staffs a toll-free voter assistance hotline, 1-800-792-VOTE, which is available year-round, with extended hours on elections days, to answer any and all voting questions from the public.

Holds educational forums on important and timely policy topics such as alternative energy and health care.

Maintains a strong media presence to educate the public on election issues, through numerous written pieces, press and radio interviews, and a blog.

Provides information about candidates through publishing and distributing candidates answers to crucial policy questions.

Publishes non-partisan and balanced ballot question analysis to help voters make an informed decision when voting.

*This year the League is celebrating 90 years
of encouraging active and informed
participation in government.*

Alternative Energy For New Jersey

Saturday, April 10, 2010

**NJ Hospital Association
Conference Center
760 Alexander Road
Princeton, NJ**

Alternative Energy for New Jersey

With many options for alternative energy sources on the market today, it has become more complicated to weigh the pros and cons of energy choices. This full-day event, which includes both breakfast and lunch, will closely examine alternative energy sources, energy policies, and energy efficiency.

Over the last year, members of the League of Women Voters of New Jersey, led by the LWVNJ Natural Resources Committee, have conducted in-depth studies of five different sources of alternative energy—biomass, solar, geothermal, nuclear, and wind. Groups will present the findings of their studies at this conference.

After these reports energy experts will speak on energy policy, efficiency, and the “smarter grid”.

Speakers

**Keynote Speaker:
Governor James J. Florio**

**Scott Minos,
Senior Policy & Communications
Specialist, U.S. Department of Energy**

**Arjun Makhijani,
President,
The Institute for Energy and
Environmental Research**
